facilities combined to handle their unusual transportation needs. Accompanied by a 10-man party of Mounties in charge of Staff Sergeant C. W. Anderson of Ottawa, the horses are shown (bottom) being loaded aboard four palace horse cars at the C.P.R.'s Ottawa

West Yards, while top photo shows loading operations aboard the Canadian Pacific's Beaverburn at Montreal harbor where the horses were placed in special padded stalls with sufficient room provided in the between decks area to allow daily exercise of the horses.

### Four Teams to Compete

## Annual Baseball Tourney At Champion May 18

The first baseball tournament of the season will be held at Champion on the Victoria Day holiday which will this year be celebrated on Monday, May 18.

Four teams—Vulcan, Carmangay, Granum and Champion—will compete for \$150.00 in prize money, with the first game starting at 1 p.m. sharp. A refreshment booth and ferris wheel will be operated on the grounds and the day will conclude with a big dance at night in the Champion Community hall.

This annual event, sponsored by the Champion Baseball Club, is always well supported by Vulcan and district fans and many are expected to take advantage of the Monday holiday and attend this ball tournament at Champion.

### 25th Anniversary Is Observed

Some 35 relatives and friends gathered at the home of Mr. and Mrs. Cliff Marshman on Sunday to help them observe their 25th wedding anniversary, which occurs this week. The surprise party was attended by all of their children with the exception of Les Marshman and his family of the Valley.

A most enjoyable afternoon was spent, after which Peter Bowie on behalf of the family presented the bride and groom of a quarter century with a lovely large mirror, on behalf of the friends and neighbors with a beautiful table lamp and a bouquet of red roses. The tea table was tastefully decorated for the occasion with a bowl of roses, tapers and two mock wedding cakes.

During the festivities Terry White took a number of pictures, after which the ladies presented a delicious lunch. All the guests joined in singing "For They Are Jolly Good Fellows" to bring the afternoon to a happy conclusion.

### Assessment over \$1 Million

## 48 Mill Rate For Current Year Set by Town Council

Mill rates for the Town of Vulcan for the year 1953 were set at the regular town council meeting held Monday evening, May 11.

The new total mill rate is .48, comprised of Schools 23 mills, Hospital 3.5 mills, Municipal 21.5 mills. This is a reduction in rate of 5 mills from last year's total of 53 mills, which was made up of 22 mills for schools, 5 1/2 mills for hospital and 22 1/2 mills for municipal purposes.

Although the mill rate is reduced from last year, the new assessment made last fall goes into effect this year and the general effect will be an increase in taxes. Taxes for the past five years have been based on an assessment of \$914,000. The new assessment is approximately \$1,193,000 and reflects the major improvement made in most homes through installation of water and sewer. Taxes are based on 100 percent of the assessed value of land, buildings and other improvements.

**Estimates**

The estimates for 1953 made provision for construction of several blocks of cement sidewalks this year and for improvement of streets. Approved contributions were also included in the estimates as follows: Ladies Rest Room \$300 Library Board \$120, Memorial Swimming Pool \$150, Cemetery Association \$250.

**Petition**

A petition signed by nine ratepayers was presented, asking the Town to widen the south side of Vulcan (main) street in Block 14. The matter was discussed and the public works committee authorized to undertake the project.

**Cemetery Association**

A delegation of Charles Fulton, William Giles and Jack Metcalfe, representing the Lions Club, Canadian Legion and Elks Lodge respectively, met with the council and discussed plans for the maintenance and beautifying of the Vulcan Cemetery. Council went on record as recommending that the Cemetery Committee formed by these three organizations act in an advisory capacity with the Cemetery Committee of the Town Council and that the town make a contribution of \$250 to the Association for the year 1953.

**Court of Revision**

Complaints regarding assessments will be heard at a Court of Revision to be held Monday, June 15.

**Auditor**

G. A. Sales was appointed auditor for the Town for the year 1953 at a fee of \$200.

**Building Permits**

The following applications for building permits were granted: Wilson Oldfield, 26x40 frame dwelling in new sub-division on golf course. Contractor, W. D. Campbell. Estimated cost \$10,000.

W. E. Roebuck, 34-36 frame dwelling on Lot 13, Block 25, Contractor, self. Estimated cost \$10,000.

Albert Thompson, 6x8 porch addition to dwelling on Lot 4, Block 25, estimated cost \$200, and 12x20 frame garage, estimated cost \$400. Contractor, Walter Mays.

J. T. Willard, 12x24 frame garage on Lots 31-32, Block 10. Contractor, J. W. Crick. Estimated cost \$650.

Applications by Wilson Oldfield, Chester Rea and W. E. Roebuck for permits to construct garages were declined until such time as their proposed residences are two-thirds completed. Councillor Scales dissented on the motion.

**Town Constable**

Council interviewed Denzel Coleman of Magrath, an applicant for the position of Town Constable.

**New Town Office**

Work has now started on construction of the new town office and council discussed heating, lighting and plumbing requirements. It was decided to use gas as the means of heating.

### Cold, Wet Weather Delays Seeding

Seeding is fairly general in the Vulcan district this week after a further setback caused by rain and snow over the weekend.

A heavy frost Monday and Tuesday nights failed to clear the weather and skies were cloudy Wednesday afternoon.

Seeding and spring work is far

### Monday, May 18 Will Be Holiday

Residents of the towns and districts within the county are reminded that Victoria Day will be observed this year on Monday, May 18, and that most local places of business will be closed that day.

As in previous years, the celebration of the Victoria Day holiday will be at Champion, where a four-team baseball tournament will be followed by a dance at night. The July 1st holiday is observed at Vulcan with a ball tournament and dance.

Residents of Vulcan and district are invited to attend the ball tournament and dance at Champion on Monday.

### Hansell To Stand For Nomination

Word has come from Ottawa that E. G. Hansell, M.P. for Macleod Federal Constituency will stand again for nomination at a Social Credit convention to be held at Fort Macleod sometime in June. Mr. Hansell has represented the Macleod Constituency in Parliament since 1935. If Mr. Hansell is nominated again, it will be the fifth time he has run for election, having won in four previous elections.

### "Grandma" Love Dies at Age of 92

One of Vulcan's oldest residents, Mrs. Euphemia "Grandma" Love, died on Monday, May 11, at the age of 92 years.

A resident of this district since 1912, Mrs. Love had always taken a great interest in community affairs and, during the two world wars had been very active in Red Cross work to provide comforts for the men overseas. She also took an interest in church affairs and taught Sunday School for several years.

Born in Hopetown, Ont., March 10, 1861, she was married to R. G. Love in March, 1891. The couple lived in Ontario until March of 1912, when they came west and started farming in the Vulcan district. Mr. Love died in Nov. of 1931 and Mrs. Love lived on the farm until she moved to Vulcan about five years ago.

During her long residence in this district she acquired a host of friends and her presence will be sorely missed.

She was survived by four sons, Robert, Los Angeles; and Clifford, Alva and Willard, all of the Vulcan district; eight grandchildren and six great-grandchildren; one brother, Tom McIlraith, Los Angeles; two sisters, Mrs. J. Turner, Appleton, Ont., and Mrs. W. Somerville, Lanark Village, Ont. Funeral services were conducted by Rev. J. S. Clarke at the Vulcan United Church on Wednesday afternoon, May 13. Pall bearers were Emmanuel Rushfield, Clara Dunham, George Fulton, Don Woodman, Alvin Jacobson and M. S. Jose.

Burial was made in the Vulcan cemetery.

### Local Highlanders In Guard of Honor

About 20 men of "A" Company, Calgary Highlanders, formed part of the guard of honor for the Lieutenant-Governor of the province at the Highlanders Ball held in the Palliser Hotel, Calgary, last Friday evening.

Representatives of the Carmangay, Champion, Lomond and Vulcan platoons of the company were in the picked contingent. Following their duties at the Palliser, the men were entertained at dinner in Mewata Armouries and report an enjoyable time.

behind normal schedule for this time of the year and two weeks of clear, warm weather is the big need of the moment.

A reporter went to interview a local celebrity who had reached his 99th birthday. As the interview concluded, the reporter complimented the near-centenarian and added, "I certainly hope I can return next year and see you reach 100."  
"Can't see why not, young man," the old-timer replied, "you look healthy enough to me."

ies at Lethbridge.

This widespread pest injures ten  
to seventy-five percent of the crop  
annually. The old, well-known cal-  
omel seed treatment gives a mea-  
sure of protection. Now, however,  
some of the newer insecticides  
have been tested long enough to  
show their effectiveness and safety.Aldrin dust (2½ per cent) ap-  
plied in bands over the seedling  
rows is recommended at the rate  
of two pounds per acre (two  
pounds active chemical). Similar  
treatment using three pounds of  
actual chlordane per acre (in 5  
per cent dust) is also effective.  
Three applications one week apart  
are required. The first application  
should be made when seedlings are  
in the loop stage, as it is at this  
time that the onion maggot fly  
starts to lay its eggs.About five pounds actual DDT  
per acre may be used in place of  
aldrin or chlordane. The 50 per-  
cent wettable formula is probably  
the best, using whatever gallon-  
age of water may be most conven-  
ient with spraying equipment  
available. The same timing sched-  
ule for treatment applies.

Description of the insect and its

life history is quoted from P.P.S.  
No. 89, by A. G. Dustan, Officer in  
charge of Vegetable Insect In-  
vestigations at Ottawa.The adult of the onion maggot  
is a two-winged fly which closely  
resembles the common housefly  
but is slightly smaller and greyish  
in color. The female lays its eggs  
in the soil at the base of the on-  
ion plants and from these the mag-  
gots are produced. The maggot is  
creamy-white in color, legless and  
equipped with tiny mouth hooks  
with which it feeds on the plant  
tissue. The maggots are extremely  
small when newly hatched but  
when grown reach a length of  
about one-quarter of an inch.The onion maggot spends the  
winter in the soil in the pupae  
resting stage. The adults appear in  
the spring about the time apple  
trees come into bloom, usually  
between the middle and the end of  
May, depending on the locality.  
The adults fly around for a week  
to ten days and then commence  
laying their elongate, white eggs  
in the soil around the base of the  
young seedlings. The eggs hatch in  
approximately a week and the  
young maggots immediately attack  
the roots, boring their way up in-  
to the stem. The maggot becomes  
fully grown in from two to three  
weeks, when it enters the soil to  
pupate. A new generation of flies  
emerges from these pupae in a  
fortnight, or a little less. There  
are two generations, or a full first  
and a partial second, in most pro-vinces, depending on the season. generation is produced in a long  
Sometimes even a partial third open fall.**Baseball

## Calkins TRASHMASTER ROD WEEDER CAN'T CLOG UP!

Mr. C. Yonkman, Nobleford, says: "One of the important things about my TRASHMASTER is that they don't clog up ... so it takes less time to weed a field. They really dig in and do the job ... and they fit ahead or behind my ten-foot drills."

A rod weeder that can't clog up means greater profit for you, because it means easier operation, faster coverage, and a smaller overhead. You see, TRASHMASTER is built with sturdy frames and goosenecks, and with lots of clearance, PLUS a patented center boot that can't clog up! Ask your dealer ... and try it yourself.

## You never saw a PROPANE BURNER like this

The Iron Fireman radiant propane burner produces radiant heat at the grate-line level, just as does the glowing coal fire for which your coal furnace was designed.

If your furnace is in good condition you need not waste money on a new one to get automatic PROPANE heat. This Iron Fireman propane burner (made in Canada) is specifically engineered for converting coal furnaces to propane firing. How? By surrounding the nonradiant blue gas flame with a combustion chamber of very light, porous refractory which heats to a state of incandescence in a few seconds and glows like a gas mantle. Its heat is radiant like a bed of glowing coals. You can switch to PROPANE automatic heat within a few hours. Complete Iron Fireman furnaces with the radiant propane burner built in are also available. ASK your local propane distributor about the efficiency of the Iron Fireman propane burner. ASK about the big fuel savings enjoyed by users. ASK about the years of trouble-free service that makes Iron Fireman the BIG BUY in propane heating.

Iron Fireman Radiant Propane Burners are made in Canada

For more facts see your Iron Fireman dealer or propane distributor.

### ARMADA

Thirteen members of the Armada Community Club gathered at the Legion hall last Wednesday afternoon to hold their monthly meeting. Mrs. L. Stokes acted as hostess for the afternoon. After singing O Canada and repeating the women's creed, general business was discussed. The ladies agreed to help the Legion with their picnic but decided it should be a community effort and that all ladies in the community are requested to help. All proceeds are to be turned over to the Armada Community Hall. The bazaar to be held in June was discussed and the date was changed to Saturday afternoon, May 30. The sewing and donations for the bazaar were handed in to the sewing committee. New lunch committees were appointed for that day. After the conclusion of the business portion of the meeting an interesting contest arranged by Mrs. K. Sokvitne was participated in by the ladies. Mrs. H. Hanna was the winner. Mrs. Art Marks provided the entertainment consisting of another contest won by Mrs. E. Howell. Mrs. S. Marks won the afternoon raffle. Mrs. K. Sokvitne and Mrs. F. Boyd assisted by Mrs. L. Stokes then served a delicious lunch to the ladies.

The Armada branch of the Canadian Legion held the monthly meeting that evening. The topic of main discussion was their picnic of May 18. Due to the delay of seeding operations, it was decided to postpone this until June 12. They also plan to make this picnic a community effort so hope the men of the district will also lend a helping hand and make it a success. It is not known at present whether there will be a dance and show in the evening or not as the present hall may be torn down by then.

Mrs. Betty Bohnet and son spent a few days visiting in Lethbridge last week.

Mr. and Mrs. S. Chambers and sons have now moved into their new home.

Mr. Sherk, a one time resident of Armada, was a visitor at the home of Mr. and Mrs. F. Boyd last Wednesday. He is also a distant relative of the Boyd family whom they had not seen for 12 years.

Mrs. Bestul of Rosebud is visiting at the Jack Marks home.

I. Kunkel was a Lethbridge visitor last Friday.

Congratulations are being extended to Mr. and Mrs. A. Willard on the recent birth of their son in the Vulcan hospital.

Mr. and Mrs. A. Marks and family were among dinner guests at the home of Mr. and Mrs. Joe Thomson last Sunday.

Herb Craine was aroused from his bed last Sunday morning by a terrible noise outside his door. On arising he was amazed to find two coyotes tangling with the dog so he quickly grabbed the rifle and shot one coyote from his doorway.

Mr. and Mrs. E. Vanatta, Norman and Mrs. Betty Lee were Sunday guests at the home of Mr. and Mrs. L. Stokes.

Residents of Armada awoke on Monday morning to find the ground white with snow. Approximately two inches of snow fell during the night and the thermometer dropped to below freezing.

### ENSIGN

The Ensign Ladies Community Club held their monthly meeting on Wednesday, May 6. Thirteen members and one visitor was present. Roll call was a donated apron for the bazaar in the fall. Business was dealt with after which a delicious lunch was served by Mrs. Hagin and Mrs. N. Flebotte. Surprise box was won by Mrs. G. Flebotte.

Little Janice Hunter and Douglas Markert have been confined to their homes with the mumps.

Congratulations are being extended to Mr. and Mrs. G. Moon on the birth of a baby daughter at the local hospital on Friday, May 8.

Mr. and Mrs. J. O'Dwyer and Jo Ann of Calgary were visitors at the home of the former's father, P. J. O'Dwyer.

The pupils of the Ensign School had a party Friday afternoon to present their teacher, Darrel Maloney with a farewell gift, who is leaving shortly for England to attend the Coronation.

Miss Lois Kennedy has taken over the teaching position till the end of the term.

Mrs. Turley had a recital at her home on Saturday, May 9 with all her pupils-taking part, which was greatly enjoyed by all the mothers, and grandmothers of the pupils. At the close of the recital a lovely lunch was served by the hostess.

Mr. and Mrs. H. Brown of Okotoks spent Mother's Day with the latter's parents, Mr. and Mrs. G. Flebotte.

Mrs. C. Mote, returned home Thursday evening from a two week's trip spent in Idaho.

Mr. and Mrs. A. McIntyre have

returned home after spending a few days at Cardston visiting with relatives.

Mr. and Mrs. Bill Turley and Mrs. Dwigans motored to Calgary on Mothers' Day to visit with Bill's mother.

### MAJORVILLE

Mrs. Bartsch and Mrs. Clemmons were joint hostesses for the April meeting of the FWUA held at the home of the latter. As often happens at this time of year, the road conditions cut down on attendance but in spite of uncertain roads, attendance was quite good. Roll call was answered by My Favorite Subject at school. Owing to too many commitments, no other organization could be found to canvass the town of Milo and west of town for the Cancer drive so the local undertook the task. A rather unusual situation has arisen in that there are no young people this year eligible to attend the Farm Young People's Week at the University in Edmonton, so at the present time it appears no one will represent the local at this very important event.

It was decided to give all possible support to the candidate for Stampede Queen sponsored by the junior organization. Mrs. Harvey Fuller read the monthly bulletin on Education. At the close of the meeting Mrs. Ross Bertrand gave a very interesting display of first aid on the bandaging of broken and injured limbs. Mrs. Fuller won the tea raffle. The next meeting will be held a week earlier to allow time for the arranging of the district conference which this year will be held in Milo the last week in May. Mrs. C. Umehied has offered her home for the May meeting.

Mrs. Hagg and Alex went to

Brooks last Sunday where they visited with Mr. and Mrs. Benny Hagg. Benny is now employed with the E.I.D. and resides in the town of Brooks.

Mr. and Mrs. Ross McLeod with some of their family were down from Calgary last week and spent a few days on the farm.

Whether it was because of, or in spite of the rain that fell last Friday isn't known, but the dance that was to have been held in Liberty Community Centre on May 1 and then postponed on account of the heavy rains following the rains of the week before, was held last Friday and it is a foregone conclusion the roads were no better. But even if it did take two hours to drive 1½ miles a good crowd turned out to dance to the old time music supplied by Jack Shield, violin; Bill Shield, banjo; and Harvey Godkin, accordion. A combination really hard to beat. Everyone voted it a grand evening and hoped it would be repeated again. Next time maybe the weatherman will be more cooperative.

Mrs. Bennett Dew was in Brooks last Tuesday taking chiropractic treatments.

Mrs. Hap Heather and Mrs. Alf Heather were Calgary visitors on Friday.

Mr. and Mrs. Bertschy were Sunday visitors at the home of Mr. and Mrs. Bert Clemmons.

## W.A. Tea

Sixty-five ladies attended the W.A. Mother's Day Tea held in the Community Hall on Saturday, May 9. A very interesting program of tap dancing, musical quartettes and readings by the CGIT girls was enjoyed. A delicious lunch was served by the members assisted by the CGIT girls. The oldest mother present was Mrs. J. N. Castator and Mrs. Carleton Mellet was the youngest mother. These honored ladies each received a lovely bouquet.

## Scout Investiture at Champion

At the Assembly Program of the Mutual Improvement Association last Tuesday evening, Len Archer, Provincial Scout Commissioner from Lethbridge, presented the Official Charter for the 1st Champion Scout Troop to Fred E. Puzey.

During the lesson period Mr. Archer spent the time with the Scout Troop in an enjoyable and informative class period.

The evening was concluded when all the classes of the M.I.A. assembled in the Recreation Hall and witnessed the Investiture of James Carlson, Scoutmaster, and Lorne Smith.

The Scout Troop meets every Tuesday at 8 o'clock in the L.D.S. Recreation Hall, Champion and invites all boys 12 or over interested in Scouting to join them.

ANNUAL FARM  
QUESTIONNAIRE

The annual June survey of farms is about to start. Forms have been, or will be, mailed to reach each farmer about the first of June and all farmers are urged to complete and return these forms without delay. The questionnaires come through the Dominion Bureau of Statistics in co-operation with the Provincial Departments of Agriculture and provide one of the basic methods of obtaining data on year-to-year changes in livestock and crop production by provinces and for Canada as a whole.

Figures on individual reports are kept confidential. When grouped with others they provide the statisticians with data for making the estimates and developing the annual statistics so important to farmers and their organizations.

More than 4 millions. Oil is used in the furnaces or heaters of more than a million Canadian homes—better than one in four.

Oil plays a large and growing part in our everyday living. How many of these questions about it can you answer?

How does Canada rank among the nations in known oil reserves—  
 8th? 17th? 21st?

How many barrels of oil (35 gallons to a barrel) do you think Canadians use in a year—  
 8 millions? 165 millions? 300 millions?

When the Leduc field was discovered, the wholesale price of gasoline at Edmonton was the highest of any major Canadian city. Today it is  
 even higher? lower? about the same?

Energy produced at Niagara Falls each day is equal to that in 9,000 barrels of crude oil. Prairie oil fields now produce energy equal to how many "Niagaras"—  
 2? 11? 18?

Taxes take a big part of a company's income. How would you say Imperial's 1952 tax bill compared with its dividends? Was it—  
 greater? less? about the same?

Far down the list a few years ago, Canada now ranks eighth. Except for a group of Middle East countries—Iran, Iraq, Kuwait and Saudi Arabia—only the U.S., Venezuela and Russia have larger reserves.

Last year 165 million barrels—about one gallon each day for every man, woman and child. Canada uses twice as much oil as she did six years ago.

Edmonton's wholesale gasoline price is now the lowest in Canada, 10¢ below the average for other leading cities. The new discoveries mean price savings of millions of dollars each year to the people of Alberta.

The energy of the oil produced in the western oil fields each day is about 18 times that generated at Niagara.

Taxes were \$55 millions, about 2 1/2 times dividends to shareholders. For each dollar of income, Imperial paid 10¢ in taxes and 4¢ in dividends. Tax figures do not include gasoline sales tax paid at the pump.

## Milo News

Say, remember those real old fashioned dances that the old timers of every district talk about so nostalgically? The ones where the music was supplied by local talent, the dancers were mostly from the home district and ever the children were present because baby sitters were unheard of? Well there was just such a dance held in the Liberty Community Centre last Friday. It had started to rain early that morning and rained hard for several hours but then the sun had showed its self for a time and it was decided that the dance would go on. Well, needless to say that the roads were a muddy, mucky mess but that didn't seem to hold up the folks that wanted to dance to good old time music and a very good crowd showed up. Some of them got stuck coming to the dance and others got stuck going home from it, but come they did anyway. Jack and Bill Shield and Harvey Godkin were the musicians and they certainly did an excellent job. As used to be the case in the days when school dances were not such rareties, the music didn't stop until the daylight was streaming in at the windows and only then did folks wend their muddy way home. The old school certainly came alive for one night and it is hoped that it happens very often during the coming months.

Miss Marjorie Deitz spent several days at home last week from her duties at the Sanatorium where she is employed on the nursing staff.

Mr. and Mrs. Gordon Marshall are now employed by Jack Sutherland for the coming months. Gordon is helping Jack with the farm work and Vera is cooking for the men while Mrs. Sutherland is away to England.

Sandra Smith is spending some time with Mrs. Anne Smith before her marriage which is planned to take place on June 2.

From the remarks concerning the weather which have already been made it is apparent that we have been getting a little moisture in this part of the country. A few

hardy souls got out on the land for a little while and got a little seed in the ground but so far it has been very little indeed. Of course we need the rain to make the crops grow, but the problem right now is to get those crops in the ground. Again this week we have had rain and what is really bad is that we have also had snow. Monday morning the ground was white with the stuff that we should have had in January and didn't. However it soon melted and left the roads in the same muddy state that they have been in for the last two weeks. Probably about July we will be hoping for just what we are griping about now.

Roy Page isn't exactly amused at the present state of affairs. He has been up once in awhile but somehow he always manages to get things straightened out eventually. He went to Queenstown to the locker to get steak and came home with boiling meat, for which Alvin was quite put out. Then she sent him to town to buy a garden rake and he came home with a hoe. However he fixed that up because he was in town on Saturday night, buying a rake and having it addressed "To Mother on Mother's Day."

Chester Anderson cut his hand rather badly last week and was forced to have several stitches put in it. The cause of the accident is unknown.

The Lutheran Ladies Aid held a bake sale Saturday night at which they also sold bouquets of colorful tulips. They realized about \$52 from the sale less the expenses.

The last service to be held by Pastor Johnson will take place May 17 in the Queenstown Lutheran church. A new pastor will shortly be installed to take Pastor Johnson's place.

The Lutheran Ladies aid is again carrying on a used clothing drive, the contents of which are to go towards helping war stricken people anywhere in the world. They will accept any articles of wearing apparel for men, women or children or money donations are also readily accepted. A request is made that the clothing be sent in clean if at all possible. Shoes in a condition rendering them still wearable are also acceptable. So when you spring houseclean and would like to get rid of articles of clothing that just hang in the closet waiting for the moths, send or take them to any member of the Lutheran Ladies Aid or to Mrs. Jack Deitz who is in charge of the project.

Larry Fleming who is now working in Calgary was a visitor in Milo over the weekend.

A rather alarming fire swept rapidly over many acres of stubble and grassland west of Milo last week. It apparently started on the Taggart land which is farmed by E. Anderson and travelled over some of Ole Morseth's stubble. About thirty men and three tractors worked for well over two hours before they finally got it under control. A very capricious wind kept switching from south east to south west and back again making the fighting very hard indeed. It jumped the fire guard ploughed with the tractors, several times. The Square M construction company sent out a bulldozer to help fight the flames and although it got there too late to do any fighting the thought behind the action was very much appreciated by the community.

Mr. and Mrs. Harold Phillips spent the weekend at Iron Springs. Mary Johnson also spent the weekend away from here by going to Calgary for a visit with some of her friends.

A special meeting of the FWUA was held at the home of Mrs. Jessie Umscheid last Monday. The meeting was called in order to make plans for the Milo local to entertain the east section of district 12 at the annual convention. In the absence of the president, Mrs. Henry, the vice-president, Mrs. Papp took the chair. After dispensing with the correspondence and all pertinent business, various committees were appointed to carry out plans for the conference which is to be held May 28. The next regular meeting will be held at the home of Mrs. Lewis Greaves. Church services will be held at 7 o'clock during the coming summer months. Mr. Chapman will be in charge of the services.

About this time of year in spite of the freezing, frigid, frosty weather that we have been having in this district some hardy souls have already planted a few garden seeds with the fond hope that someday it will be warm enough for them to grow. Now there is one unique garden in this community that has gained for itself no small amount of comments mostly because of the actions of its founders. Joe Thomson and Albert Stumpf have for several years now taken over a portion of Jack Deitz field to fulfill the arming instinct that seems to lie each of us. Now in selecting their land

for some reason which no one could figure out, they chose a steep sidehill. The other day we found the reason for this. To work their land they have one of those wheel hoes that is operated by a strong man pushing it. Joe was using it last week and the mystery of why the side hill was solved. He went to the top of the hill and ploughed down then went back up the hill empty, only to plough back down again when it wasn't such hard work. No so dumb eh? Friendship oft would longer last. And quarrels be prevented. If angry words were let go past. Forgiven — not resented.
